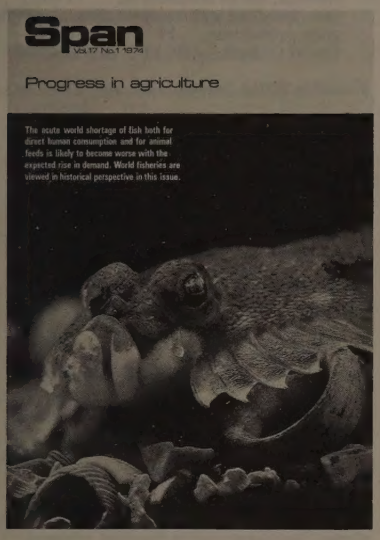
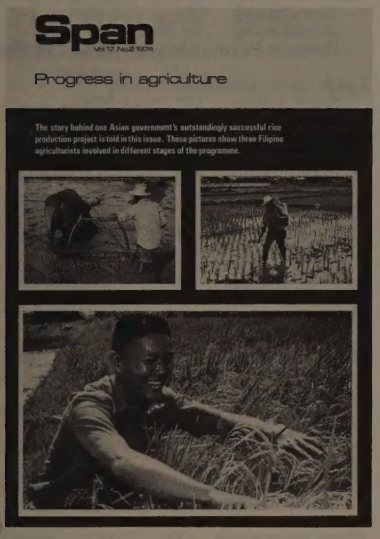
Span Index 1974

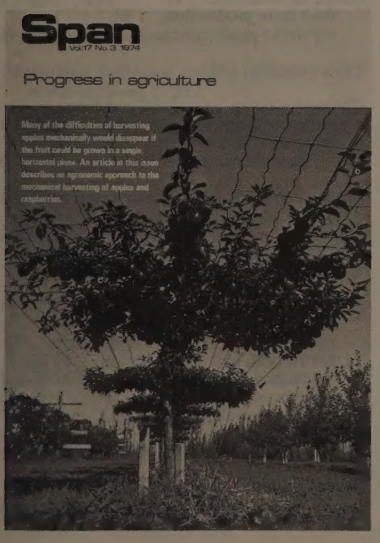
Volume 17 Nos 1,2,3



Span
Vol.17 No.1 1974
Progress in agriculture
The acute world shortage of fish both for direct human consumption and for animal feeds is likely to become worse with the expected rise in demand. World fisheries are viewed in historical perspective in this issue.



Span
Vol.17 No.2 1974
Progress in agriculture
The story behind one Asian government's outstandingly successful rice production project is told in this issue. These pictures show three Filipino agriculturists involved in different stages of the programme.



Span
Vol.17 No.3 1974
Progress in agriculture
Many of the difficulties of harvesting apples mechanically would disappear if the fruit could be grown in a single, horizontal plane. An article in this issue describes an agronomic approach to the mechanical harvesting of apples and raspberries.

Amino acid composition of citrus seed meal, . . 87
field beans, . . 21
maize, . . 18

4-aminopyridine, for bird control, . . 128

Amitrole, . . 85

Ammonium sulphate, soil acidifying effect, . . 28

Anchovy fishing, Peru, . . 14 (fig.), 73

Animal breeding, beef cattle, crossbreeding, . . 64 (figs.)
cattle, and inherited diseases, . . 3
cooperative schemes, New Zealand, . . 66
sheep, Libya, . . 110 (fig.)

Animal nutrition, citrus seed meal and, . . 87
single cell protein and, . . 133

Anthonomus grandis, . . 129

Anticarsia gemmatalis, . . 122 (fig.)

Ants, control, . . 122 (fig.), 129
damage to soyabean by, . . 123 (fig.)

Aphidius matricariae, biological control of aphids by, . . 33

Aphids, on cotton, Nigeria, . . 27
glasshouse pests, control, . . 32, 33
green peach, control, . . 129

Aphis gossypii, . . 33

Apples, canopy training system and mechanised harvesting, . . 112

Aquaculture, . . 14, 15, 76, 123

Arabidopsis thaliana, . . 62

Aroids, edible, . . 117

Asia, fisheries development, . . 14
World Bank loans for agriculture, . . 99 (fig.)

Asian Development Bank (ADB), loans for agricultural development, . . 100

Asparagus, in South of France, . . 40 (fig.)

Atta spp, . . 122 (fig.), 123 (fig.)

Attractants, pest control, use in, . . 129

Australia, forestry, use of fertilisers in, . . 69 (fig.), 71 (fig.)
fruit, international markets for, . . 2

Autofertility, field beans, . . 22

b

Bacillus thuringiensis, pest control, use in, . . 33, 34

Bacteria, gene transfer in, by bacteriophage, . . 62, 63
inoculated seed, soyabean, . . 122

Bacterial disease, cotton, . . 26
soyabean, . . 122 (fig.)

Bacteriophage, gene transfer by, . . 62, 63

Baits, pest control, use in, . . 129

Bananas, animal feedstuff, use as, . . 111

Barley cultivation, Libya, . . 110
Saudi Arabia, . . 107

Barley feed supplement for cattle, . . 8, 9, 107

Beans, *see* Field beans

Beef cattle, *see* Cattle

Beef production, computers in farm management, use of, . . 60
from bulls, . . 8

Bees, pollination of field beans, . . 22

Benomyl, effect on spider mite predator, . . 34

Bentazon, . . 85

BHC, . . 28, 33

Bidens pilosa . . 121 (fig.)

Bilharzia control, Egypt, . . 34 (figs.)

Biological pest control, . . 32, 130

Biomphalaria alexandrina, . . 35, 36

Bird pests, Africa, . . 126 (figs.)

Blackberry, marionberry hybrid of, . . 2

Blight, cotton, . . 26, 28
peanut, . . 129
soyabean, . . 122 (fig.)

Boll weevil, control, . . 129

Bollworm, on cotton, . . 26, 27
control, . . 28, 129

Bombus spp, . . 22
